
Any Lao business owners?

Posted by uaservers - 02/28/2008 04:29am

I was just wondering if there are any Lao business owners like myself in here?

How's it going?

A couple friends and myself just launched a Digital Advertising/Signage business up here in Canada. Our city is pretty new to it so we are diving in to be one of the firsts. We are starting small placing our LCD screens at local restaurants and bars with high traffic coming in.

What industry are you in?

It's good to see Lao people running their own businesses. We need more of that going on.

I'm in the computer field you can say. I have a company dealing with renting Dedicated Servers, PC Game Servers, Web hosting, PC Case customizing.
